Web Development

CI with Github Actions

Passion for teaching and learning

Teamwork

LANGUAGES

English - Conversacional
Minimum Professional Proficiency

Español - Native

PROFILE

I am a Frontend Developer, with more than 2 years of experience creating, and learning. As a developer I know how to create web applications and web pages, since I have knowledge of languages and technologies such as:

- Javascript
- HTML
- CSS
- React.js
- Next.js
- Github
- Docker
- Tailwind
- MongoDB

My teamwork, and my love for learning and sharing knowledge is very beneficial in an organization that aspires to grow.

EDUCATION

Jan 2023 - Feb 2023 **JavaScript Professional Course**
[Platzi](#)

I learned about data types, and language structures, asynchronism, and more

Sep 2021 - Oct 2021 **Front End Development Libraries**
[freeCodeCamp](#)

I learned to create, and complete projects, using React.js, Redux, and Jquery

EXPERIENCE

Oct 2022 - Dec 2022 **Frontend Developer**
[U.E. Colegio Domingo Savio](#)

My work included the creation of routes, the layout of pages and the integration of data from an API in JavaScript to display it on web pages.
